€815.00

Unique Item!

Snake compact didg

didg made by Yoram Sivan

Pyrography by Julia Surba

material: birch wood

key: D#, Toot: G

total length: 1,5 m

size of the compact model: 25 x 46 cm

(fits in a normal suitcase, it is also possible to take on board into an airplane)

weight: 1kg 38 gr

including padded soft case: 30 x 55 cm

holder length of the soft case: 90 cm (you can carry it on your shoulder)

These instrument is delicately hand-carved and finished to rich the highest standards in musical instruments making.

Among its characters you can find precise tuning of the basic drone+ 1st and 2nd touts (horns), a sharp and harmonic sound "full with bass frequencies and an easy 1 tone drag-down 'bending' of the basic drone. All these make it, not only an easy to carry around instrument but also a real fun to play, professionally made instrument.

This instrument comes with a life-time guarantee from its maker. This maker's sign stands for quality and endurance.

Hi Nadishana

The Snakedidge and the Khomus have arrived today. All my compliments to Julia - it's great and beautiful artwork. And both instruments have a wonderful sound. I'm very happy with them - thanks a lot.

Could you tell me what kind of wood the didge is made from? Is it Paulownia tree as it says on Julia's homepage under "news" (I suppose that's my didge on the pictures)?

All the best to you an Julia

Dieter
