diameter 45 cm, frame 6 cm deep, light (weight just 820 gram), the tuning pump is included in price.  
Henna Art by [Julia Surba /Kuzhebar Design Studio](#)

Master of Animals is one of the nature-deities in mythology of Ancient Kuzhebar. He has no particular look, his shape is changeable and variable. He could appear as a spirit with many faces, as an animal, as a human or just invisible. He is able to have any animals' form he wants. Master of Animals knows and influences life and death of all animal beings, he protects and heals them, and can change their fate. If it happens that a human brings help to an animal folk, in acknowledgement of that Master of Animals can accept such a human as his pupil and can teach his pupil the animals' language and the ability to have an animal shape.

How pneumatic tuning system works (by [David Kuckhermann](#)) :

Some infos regarding henna paint:

Since ancient times henna had been proved as the best material for drum skin decoration.

The reasons for that are:

1. henna don t influence the sound of the drum, don t damp it, because the paint is made with henna paste, which will be removed after 48 hours out of the skin, leaving a trace. Tanin - the natural color inside henna will be absorbed by the drum skin, the process is similar to a soft etching.
2. lifetime of henna paint is as long as of your drum
3. henna paint doesn t fade with the time, in opposite, with the time the color get darker. When the drum is played with hands, the fat of the hands get in contact with henna trace and the color get even more darker.
4. because it is a kind if etching, the henna paint never smears or runs.
