RAV VAST drum - Melodic Steel Tongue Drum

€682.00

**You can also place an order by email: This e-mail address is being protected from spambots. You need JavaScript enabled to view it*

This is a truly revolutionary instrument in a family of metal tuned percussion. Due to special patented technology there's up to 6 harmonics tuned on each tongue. On a central note of drum there's 7 harmonics tuned. It's possible to separate those harmonics and extend the range of the instrument to full 2 octaves of the scale. Imagine 9 bells tuned to the scale and on each of them all the partials are tuned as well! That's how we would describe the sound of this instrument.

We offer 2 models: RAV VAST (1.5mm steel) and RAV VAST2 (2mm steel). RAV VAST2 is made from thicker steel and it's approx. 15% louder than RAV VAST, but has a bit less overtones. Both models have nice long sustain.

Please note:

Â - VAST2 is not an improved model of the instrument. It's just a variation with slightly different tone. Some scales work on 1,5mm steel and some work better on 2mm steel.

- It's not technically possible to make VAST scales on VAST2.

- VAST and VAST2 is the same price.

The RAV Vast is about 4.9kg, and the Vast 2 is about 5.9kg. The models are scale related. To hear the examples of the sound of the each model please scroll down this page.

Â

Â

Nadishana & Andrey at RAV workshop:

The instrument is developed and being made by Andrej Remjannikov.

It's fine tuned instrument which can be played by beginners and by professional musicians. It can be used for the stage performances, studio recordings and for healing sound sessions as well.

A variety of musical scales is offered to you, allowing you to choose your favorite tuning.Â Â

The instrument was inspired by the famous Swiss made hang drum.
